## GEOGRAPHY Assignment due Co-Op 5

Continue to blob South America from memory taking care to accurately place the countries (as previously assigned), and add these geographical features that we discussed in class:

Amazon River  
Amazon River Basin  
Andes Mountains  
Atacama Desert  
Tiera del Fuego  
Galapagos Islands  
Falkland Islands  
Strait of Magellan  
Cape Horn  
Caribbean Sea  
South Pacific Ocean  
South Atlantic Ocean

Quizlet has these features added for you to study, BUT ***Quizlet is NOT more important than blobbing, so if you're spending time on Quizlet but not accurately blobbing the countries and features, then you've missed the mark.***

\*Students who have not accurately learned to blob the South American countries should focus on blobbing and labeling those first, then add in the features. Please pay close attention to the placement of Bolivia, Paraguay and Uruguay — most students confused where these countries are in relation to each other on their map in class.
